SUMMARY

I'm a hands-on Solution Architect with over 2 years of experience in web technologies and a solid background in computer science. I love bridging the gap between technical details and business needs, making complex concepts easy to understand. Whether it's working with web development, APIs, or security protocols, I'm passionate about finding innovative solutions that help customers succeed and drive business growth.

EXPERIENCE

Solution Architect

GotMyHost

April 2024 - Present, Dhaka, Bangladesh

- Oversaw the intake, categorisation, tracking, and timely response of RFI/RFP/RFX proposals, ensuring comprehensive and accurate first-draft and final-draft submissions.
- Coordinated with product and technical teams to gather precise information and develop tailored technical responses that align with customer needs.
- Kept current with GotMyHost product updates, web development trends, and emerging technologies (HTML, CSS, JavaScript, REST APIs) to enhance solution architecture.
- Leveraged AI tools and methodologies to streamline proposal processes and improve pre-sales efficiency.
- Translated complex technical concepts into clear, customer-friendly language, supporting both technical and non-technical stakeholders during pre-sales engagements.

Freelance Web Developer

Fiverr

January 2024 - January 2025, Remote

Full-Stack Developer

Wolast Technologies

February 2021 - April 2024, Dhaka, Bangladesh

- Developed Custom Web Solutions: Built and maintained web applications using HTML, CSS, JavaScript, REST APIs, and GraphQL, ensuring high performance, scalability, and security compliance.
- Integrated Front-End & Back-End Expertise: Leveraged a comprehensive understanding of both front-end and back-end technologies to create efficient, maintainable, and user-friendly digital experiences.
- Client-Centric Design & Implementation: Partnered with clients to gather requirements, design intuitive user interfaces, and implement responsive, SEO-optimized solutions that align with business needs.
- Continuous Improvement & Support: Provided ongoing support and enhancements, proactively monitoring and updating systems to boost performance and user satisfaction.
- Effective Project Management: Oversaw multiple projects concurrently, meeting strict deadlines and delivering reliable outcomes that drive customer success and growth.
