SUMMARY

Highly skilled Front-End Developer with more than six years of experience in web development and a proven track record of delivering user-centric, high-performance digital solutions. Experienced in building and maintaining custom web applications using React, Next.js, HTML, CSS, JavaScript and other modern front-end technologies. Adept at collaborating with clients and cross-functional teams to create responsive, SEO-optimized, and visually appealing user interfaces. Skilled in translating complex technical concepts into clear, user-friendly language, ensuring a seamless experience for both technical and non-technical stakeholders. Passionate about staying up-to-date with the latest industry trends and leveraging emerging technologies to improve development processes and enhance end-user satisfaction. Proven ability to manage multiple projects simultaneously, meeting deadlines and exceeding client expectations.

EXPERIENCE

Solution Architect
GotMyHost   April 2024 – Present, Dhaka, Bangladesh

· Oversaw the intake, categorization, tracking, and timely response of RFI/RFP/RFX proposals, ensuring comprehensive and accurate first-draft and final-draft submissions.
· Coordinated with product and technical teams to gather precise information and develop tailored technical responses that aligned with customer needs.
· Stayed current with GotMyHost product updates, web development trends, and emerging technologies (HTML, CSS, JavaScript, REST APIs) to enhance solution architecture.
· Leveraged AI tools and methodologies to streamline proposal processes and improve pre-sales efficiency.
· Translated complex technical concepts into clear, customer-friendly language, supporting both technical and non-technical stakeholders during pre-sales engagements.

Web Developer
Wolast Technologies   February 2021 – April 2024, Dhaka, Bangladesh

· Developed Custom Web Solutions: Built and maintained web applications using HTML, CSS, JavaScript, PHP, REST APIs, SQL and MySQL, ensuring high performance, scalability, and security compliance.
· Integrated Front-End & Back-End Expertise: Leveraged a comprehensive understanding of both front-end and back-end technologies to create efficient, maintainable, and user-friendly digital experiences.
· Client-Centric Design & Implementation: Partnered with clients to gather requirements, design intuitive user interfaces, and implement responsive, SEO-optimized solutions that align with business needs.
· Continuous Improvement & Support: Provided ongoing support and enhancements, proactively monitoring and updating systems to boost performance and user satisfaction.
· Effective Project Management: Oversaw multiple projects concurrently, meeting strict deadlines and delivering reliable outcomes that drive customer success and growth.

Freelance Front End Developer
Fiverr   January 2024 – Present

· Developed and maintained custom websites and web applications for a diverse range of clients.
· Specialized in both front-end and back-end development using technologies such as Next.js, React, JavaScript, and TypeScript.
· Collaborated with clients to gather requirements, design user interfaces, and implement responsive, SEO-friendly websites.
· Provided ongoing support and enhancements to ensure optimal performance and user experience.
· Managed multiple projects simultaneously, delivering high-quality work within tight deadlines.
